

Jacob Stanaford

Full-Stack Software Developer

Camp Hill, PA 17011 | jacobstanafordprofessional@gmail.com | (978) 799 - 8192

[LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Summary:

Enthusiastic software developer with a passion for continuously improving education and skill set. Self-starter, former educator, and responsible team player dedicated to demonstrating the right skills, mindset, and attitude in any work environment.

Experienced in integrating advanced AI models (ChatGPT, Gemini, LLMs) into production applications and designing complex software architectures (Event Driven, Service Mesh, Data Lakehouse). Expertise in developing scalable cloud infrastructure with containerized microservices on GCP and CI/CD automation. Currently pursuing a Master's in Computer Science with ML specialization while combining technical precision with creative problem-solving to transform legacy systems into maintainable, future-ready codebases.

Skills:

Programming Languages: PHP, Bash, JavaScript, SQL (MySQL, MariaDB), Liquid, C#, HTML, CSS, Python, Node.JS, TypeScript

Frameworks & Technologies: WordPress, Laravel, Shopify, Drupal, Magento, Joomla!, Django, .NET, Google Cloud Platform, Express.js, Jenkins, Ansible, Docker, AWS, Zend Framework, React, CI/CD, Tailwind

IDE Experience: PHPStorm, Visual Studio, Sublime, Visual Studio Code, PyCharm, Cursor

AI Model Experience: Cursor, Claude, Gemini, Github Copilot, Llama, DeepSeek

Version Control: Git, GitHub, BitBucket, Beanstalk

Work Experience:

WebFX, Harrisburg, PA

Senior Developer | Full Stack Development (full time)

Mar. 2020 – May 2025

- Developed, implemented, tested and supported a wide variety of web-based projects primarily built on LAMP stack technologies.
- Creative lead to introduce AI development tools and AI security to the design, front end development, interactive development and project management departments.

- Pioneered DevOps workflows to the primary client facing teams to improve local development via Docker to deployments on a variety of LAMP stack servers for client and internal websites.
- Identified and resolved issues on various open-source platforms through debugging and problem-solving techniques.
- Provided consultation to both clients and team members to ensure that enterprise business applications are using efficient, profitable technologies.

Prosper IT Consulting , Portland, OR

Software Developer Intern (Full-Time)

Dec. 2019

- Worked within the Agile Methodology (such as Scrum) on a 2-week sprint project.
- Collaborated with teams of developers in projects utilizing Git and Azure DevOps version control systems.
- Fully developed front-end and back-end aspects to assigned application on the collection of items utilizing Python, Django Frameworks, JavaScript, Git, Beautiful Soup, JSON, and Azure DevOps.
- Learned how to use the Django frameworks and Python to reference an API service and render a page of Data Scraped articles relevant to the topic.

Keystone Human Services, Cumberland County, PA Community Support

Professional

August 2019 - March 2020

- Clinically oriented support work for adults living with autism.
- Assistance in skill development.

Education:

Stevens Institute of Technology Computer Science

Fall 2023 – Present

- Computer Science MSCS with a focus in AI & Machine Learning.
- Classes designed to develop skills as software development leaders and high-quality programmers.
- Specific focus & extra curricular courses geared towards machine learning, linear algebra, algorithms and applications.

The Tech Academy, Computer Science

Sept. 2019 – Dec. 2019

- 15-week intensive software development bootcamp with courses in: HTML, CSS, JavaScript, SQL and a primary focus in Python & Django Frameworks.
- Covered front-end and back-end web and software development.

Messiah College, PA

Aug. 2015 - May 2019

- Music Education K-12 Bachelor of Science.
- Concentration in vocal and piano studies.
- Certified Educator in the state of Pennsylvania.
- 3.55 GPA (cum laude).
